FOR WHAT ITS WORTH

If you have anything that you'd like to see in the newsletter, let me know and I'll put it in. Classifieds are welcome.

For Sale:

I have a 1998 Procraft for sale. It is an 18ft. Boat with a Mercury 150 EFI. I bought it in December and drove all the way to Virginia to pick it up. I decided not to keep it because it is just to pretty. I hate to drill a bunch of holes and beat up such a pretty boat. It runs great and will go about 70 mph. It is ready to fish and very clean. I have all the maintenance records on it and you can see that it was well maintained. You can see pictures and more information about it at <http://www.bassfishing.org/procraft.htm>

CHAPTER #006117

Page 3

The dealer that I bought it from showed me a printout that said it was worth \$10,500. That is about the price that most comparable boats are listed on boat trader for. I am willing to sell it for \$8,500 so I can get it out of my storage unit. If you know anyone interested, you can get them a deal for \$8,500. Starting next week, I am booked solid until May. I would like to sell it this week. The <http://www.nadaguides.com> website shows that the average retail on this boat with a 120 hp is \$8,000. This boat is well above average and has a 150 hp motor.

It is a 2000 Nitro NX882, 150 hp Merc, two live wells, bilge pump, on board charger, trailer w/brakes, swivel trailer tongue, top speed about 70 mph, fish finder, etc. Everything works.

I will not refuse a reasonable offer.

thank you
